

## CHRISTMAS MESSAGE 2020

12/17/2020

Hi,

I share with you this message that relates to the God-Presence Energy (GPE) Meditation Program I planned to introduce at St Clare Hospital. Since I am working in the Emergency Department, one night this thought came to me: in a way the ER doctors and nurses are the extension of God's Graceful Hand because when somebody arrives with a life-and-death condition they try their best to either stabilize the problem or save the patient. These ER doctors and nurses only act with the intention of stabilizing and saving the patient. Using this analogy, when we act as GPE Graceful Hand we will either calm the situation or solve the problem, and we definitely do not create any negative impact through our intervention.

By the way, during my break time each night I have made a habit of opening the Bible to get the random verse and here is the verse for today:

But be careful! Watch out and don't forget the things you have seen. Don't forget them as long as you live, but teach them to your children and grandchildren. (Deuteronomy 4:9)

It is amazing for me to capture the guidance or reminder from the Voice of Silence (VOS) channel. We are living and seeing many situations around us as the entire human race is facing the turbulent storms with the pandemic, injustice, unrest, or violence. I was given a vision of the vast number of living micro-organisms such as bacteria and viruses are organizing and strengthening themselves to adapt to the changing motions of the universe. These living micro-organisms will adapt and evolve just as they had done for millions of years on planet Earth. This time they will make a big impact on the human hosts because the human species will have to adjust, too. If people are not conscious, the death rate will continue to rise. According to MSN News, millions of Americans would choose death over deprivation as they defied all public health advice. There are people who feel desperate, helpless, or scared; and there are those who are defiant, ignorant, reckless or selfish. But our Heavenly Parents also prepare a number of people who can take mankind to a new level. At the present time, compared with the people who have money, power or intellect, these individuals are among the lowly, ordinary, poor, or weak. But with God's Presence within each one, they will be the most effective witnesses of God's grace on earth. With the GPE Development Stages, these practitioners will literally become God's fingertips! God only needs one touch of His fingertip to change everything. An effective witness of God's grace is the resilient one who will be at the tip of the spear to ignite the fire of faith or to pass on the GPE ability to others. We are blessed to be right in the midst of this historical moment of human evolution!

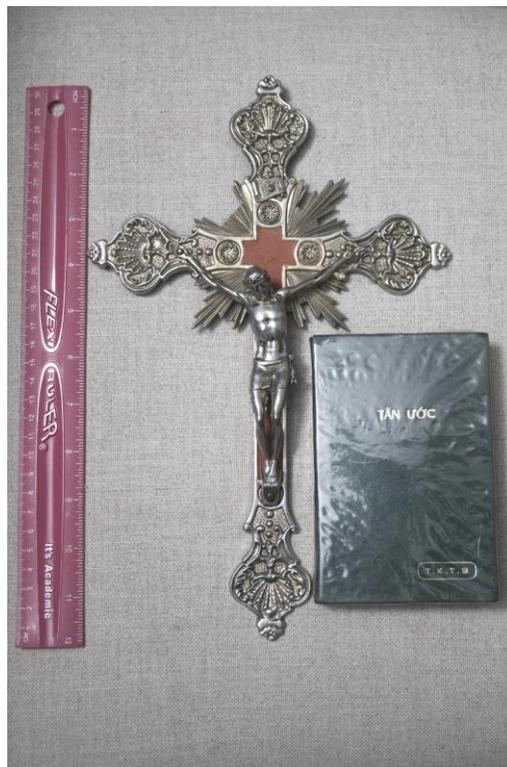

During my sleep the other day I had a dream and saw two interesting visions that are related to the concept of GPE Graceful Hand. In the first vision, I found myself in the universe of Mario Kart video game and I got the Star. For those who are not familiar with these video games, Mario Kart is a racing game. The Star is a rare item that gives you invincibility and a boost in speed so you can overcome all obstacles or attacks and get to the finish line faster. My children like the Mario Brothers video games and they often play together. I guess this is a funny way the Lord showed me the Star that would give invincibility and speed as another way of explaining the functions of the GPE Graceful Hand. By becoming the GPE Graceful Hand we have invincibility in a sense that God's Presence will give us the strength and wisdom to avoid, endure or handle any forms of calamity, danger, sickness or trouble. Referring to the speed, the GPE Graceful Hand will either shorten the duration of the issue/trial or accelerate the recovery rate or let time/space support rather than oppose us.

In the second vision, I was reminded of how I conducted myself and felt during my trips to Vietnam in 1991. From my personal viewpoint, those two trips to Vietnam were extraordinary and magical because I watched many "miracles" that happened around me. I saw the healing as I laid my hands to help people with the energy-transfer technique. I had the intense spiritual experiences from helping the cases of people who suffered from mental problems due to the influences of black magic or possession. The Lord pointed out the emotional, mental and spiritual states I was in at that time. After the car crash, I was "numb" emotionally and found peace as I lived among the poor, suffering and underprivileged people in those remote villages. My mind was completely still because I lost everything and no longer had any material concerns. Therefore, I just locked on God's guidance, or we refer to the VOS channel now. After my near-death experience, I was spiritually awakened so I was very consciously aware of the various levels of energy vibrations ranging from low to high as I moved around and interacted with people in the different regions of Vietnam. At that point, I was totally engaged as I followed God's guidance with absolute trust. I remember the serene atmosphere of the prison cell as I was arrested by the soldiers and I had no fear of torture or death. I can still see the view from behind the iron bars and feel the emotions from St Paul's letters as he wrote them from the Roman prison cell. It was God's Graceful Hand at work as He let me have the Cross and Bible inside the prison cell. I wore this metal Cross with me everywhere and had the pocket-sized Bible in the left pocket of my shirt. However, when the soldiers came to arrest me during the night, they never touched me. They should have searched to determine whether I carry anything or not. But nobody laid a hand on me. At that point my faith was very strong as I had absolute trust in God, because He actually saved my life and gave me another chance on earth less than a year ago! From this perspective, I was "detached" from the material world and that was the reason I could walk on earth but was not bound by the material influences. I really lost everything after the fatal accident so I did not have any concerns nor desires in the physical realm. I focused totally on the spiritual realm and that was how I could endure through the challenging and tough conditions in Vietnam. Later, the Lord pulled me out of that environment because I have shown Him my absolute trust and was tested by fire. I was able to maneuver and move according to God's instructions. After those lessons, the Lord brought me back to the USA and showed me how difficult it would be to follow this path as a family man.

This time, the Lord is teaching me the effective detachment process to become the GPE Graceful Hand. The key of this process is to set the priorities in your mind, and discipline yourself to follow through with it. By setting the priorities, we should know who the Source of our problems as well as solutions is. We need to know God, the Creator of the universe, is the Source of everything that exists in the physical and spiritual realm. Therefore, our top priority should be to find God's Presence and receive His guidance. As human beings, we often set a condition in which we need to solve our own issues first and then we will be able to search for God's Presence. On earth we continue to face relentless issues, and they never end. This is the nature and cycle of the physical realm. We can never control or stop its functions and operations because they are designed to promote growth and evolution. If we consider ourselves to be the users of this system, then we will get to a point that we are overwhelmed or unable to handle the massive data load. As a result, we can feel completely burned out, depressed, lost or stressed out. But if we train ourselves to become the system designer or system manager, then we do not see adversities as obstacles or problems but as new opportunities for growth and evolution.

At the present time, I am beyond the point of believing the GPE Graceful Hand works, in fact I know the process and how it works because I have received clear explanations from the Lord. I have moved from believing to knowing. I may know how the system works, but I cannot run the program without the activation key. In this case, to become the GPE Graceful Hand we need to have the Authorization Code activated and it is given from the Lord, not from any human being. While I typed these texts, I suddenly caught the thought of being God's fingertip that brings the spiritual and physical realms together as one. The GPE Graceful Hand will create or generate an event in space/time that significantly affects others physically and spiritually.

When the Lord activates your Authorization Code you will definitely feel and know it. I use the term Authorization Code because it is the best way I can describe the neuron firing that occurs in the brain, and it literally activates all the body's system functions. Using the Mario Kart example, after receiving the Star you are glowing, invincible and moving fast. It is a symbolic way to describe this condition and I can only share the experience from my trip to Vietnam in 1991. After my car crash in 04/1990, the Lord revealed to me what I can do and He showed me His authority as I attempted to give up three times. When I was convinced and committed myself, I asked the Lord to give me a "symbolic sword" as a sign of His authority that I actually carry with me. To my surprise, the next day a friend of mine stopped by to visit and brought me this Cross (as shown in the picture). She said she was in a store and something told her to get this Cross for me. I carried this Cross with me everywhere. In fact, I wore it as I travelled all over the place during my trip to Vietnam. When I was there, somebody brought me a pocket Bible (New Testament) and I kept it inside my left pocket. This Cross and Bible stayed with me in the Vietnamese prison cell. Through the entire journey, I felt invincible in a sense that I knew nothing on earth could touch me, and I was totally at peace because I sensed God's Presence with me as I committed myself to follow His Will and helped the people who were oppressed and suffering. It was a magical journey, even though I lived in poor conditions or faced tough challenges. I still remember those precious moments because I was totally in God's Graceful Hand. Now, the Lord is giving us a training process to become the GPE Graceful Hand. You will know what I mean when the Lord activates your Authorization Code and gives you His symbolic signature to hold. It will be very clear and the feeling is genuine. This is the best way I can express based on my personal experience in 1991.

By the way, I do not think it is a coincidence that the Lord suddenly used the symbolic video game's Star to describe the GPE Graceful Hand's transformation, because this year we can actually see the Christmas Star in the night sky as the world celebrates the birth of God's Presence, or the transformation of the Most High into a humble human being. If you have a chance on 12/21/2020 to see the Christmas Star, please take a high-resolution picture for me. I think some of you may have a good chance to see it under the clear night. This is a rare sight that we can actually look at the Star of Bethlehem with our physical eyes!

I may not be able to see it under the cloudy or hazy sky in Fenton, but I can see it through your eyes and camera lens... I will cherish this photo because it is a "frozen moment in history" and the future generations will only read about what actually happened at the Beginning of the Worldwide Transition that started from 03/2020. I asked many friends from various locations to capture a picture for me. When I received the info about the GPE Graceful Hand, the thought of asking for the Christmas Star's picture came to me. The Lord already told me that I will not be able to see it with my own eyes, even though I really want to, and I can only see it through the eyes and camera lens of my friends in various places. I will tell all of you the reason why after you have actually seen and experienced this rare site.

Now I know the reason why the Lord delayed my plan to start the GPE Training Program at St Clare due to the increased COVID cases. Since the human race is facing a challenging and turbulent storm, we need to get the information on the process of becoming the GPE Graceful Hand and Physical God's Presence. I have received the concept and it is fairly clear to me. However, I still need to actually experience this in a real-life situation. I have already seen a partial view of the GPE Graceful Hand at work when I helped others either with my thoughts or words or deeds. The process will involve the alignment of external elements of Heavenly Timing, Earthly Advantage and Human Harmony together with the internal elements of our Humility, Openness and Truthfulness. I leave these thoughts for all of us to contemplate on during the Holiday Seasons and may God's grace be with all of you and your loved ones.

Merry Christmas & Happy New Year!  
Vu Tran
