

## NEW YEAR MESSAGE 2024

12/28/2023

Hi,

During the past few days, I received these messages that will be impactful next year. One point is how to receive God's instructions in which we need to have Pure Thoughts. The other point is about how humans can be the Superior Species and have good health.

### **Pure Thoughts:**

After completing the 3-Day Test and 40-Day Adaptive Phase, you can monitor to catch God's instructions. You are becoming God's remote instrument and He gradually utilizes you through the daily interactions ranging from the ordinary to the significant tasks. In the beginning, you may catch a thought or hear a voice that you need to think before you proceed. Here is the guideline that determines the idea or instruction does not come from your ego. When this thought does not have the elements of power hunger and/or selfish interest. In a sense, it is a pure thought that genuinely helps others. You know it feels right in your heart and mind. Sometimes you may sense a strong GPE vibration and it gives you a confirmation. You will go through a series of interactions to learn and develop the trust as well as your follow-through time. The ultimate goal is to reach a level of instinctive reaction. When God sends an instruction, you follow through immediately and observe the way He maneuvers. This is the process that Jesus Christ went through when He was a human being. It was different from the experiences that Moses or St Francis of Assisi had. Moses had face-to-face conversation with God. But he still had internal issues with his mind and emotions, and there were several occasions he hesitated or did not follow the instructions. St Francis of Assisi was instructed to rebuild the Church, and he received the stigmata as God's assigned workstation. However, he had the external challenges from the powerful Church authority. Moses and St Francis of Assisi were not operating at 100% GPE Level. For this reason, there were "glitches" in the communication system between God and His instruments.

Jesus Christ was God incarnate because He wanted to get His own assessment. Therefore, God became a human being in order to test the communication system with all of the physical limitations as well as external challenges. We have observed the extraordinary abilities and amazing achievements of Jesus Christ during the short period He was on earth. However, His most important objective is to set a standard on how a human being can operate at 100% GPE Level or Christ Level. To set the standard for us to follow, He made a statement, "*I am the way, the truth and the life*" (John 14:6). To help us understand our ability at 100% GPE Level, He said we will either *do the same or more than what He had done* (John 14:12).

I use the computer system to illustrate this viewpoint. The Lord is the software manager who wants to install a communication program on each workstation in the network. He tested the first version more than two-thousand years ago. Now in the twenty-first century, most of the workstations are capable of receiving this software package. He initiates the software download so any workstation can get it and be able to utilize this communication system.

### **Superior Species:**

This message is a reminder and wake-up call for us. I use the computer analogy to explain this concept. The human species are the electro-biochemical systems that went through millennia of evolution together with the others (i.e., birds, fish, reptiles, and, and so on). According to the design specifications, we are supposed to be the superior species, as described below.

Then God said, "*Let Us make man in Our image, according to Our likeness; let them have dominion over the fish of the sea, over the birds of the air, and over the cattle, over all the earth and over every creeping thing that creeps on the earth.*" (Gen 1:26)

However, we cannot deal with seasonal allergies or common colds. Here are some examples of the animal's extraordinary abilities: the Komodo dragon has innate immunity to fight against infection, the shark's genes have higher resistance to cancers, or the snake's ability to shed skin, and so on.

Komodo dragon's immune system (antimicrobial peptides AMP)

As human beings, we are not moving forward on our path of evolution. In fact, we are falling backward because we are totally dependent on chemicals and drugs rather than finding ways to enhance our built-in immune system to maintain our health. The other species lived on the same planet earth for millions of years, and they were able to adapt and evolve. Basically, they are able to keep up with the upgrades in order to optimize their immune systems and protect their health. We think we are the superior species but we are the weakest link! We are driven by greed, power and selfishness. Now, we are totally under the control of the capitalists, politicians and scientists. We cannot even focus our resources on discovering the human latent abilities, because we are totally dependent on chemicals and drugs. Just imagine the Komodo dragons cannot be infected by bacteria, or the sharks do not have cancers, or the snakes do not have wrinkles, and they are supposed to be the inferior species. The human species should be able to handle all of these issues with our God-given abilities and wisdom. We are in time for an upgrade and become God's remote-access workstations.

When I received these messages, the Lord also gave me a warning: "After sending these messages, you will be unpopular because there will be many doubters or skeptics even among the people you know. For this project to work, these challenges or oppositions are needed. It is similar to a play that needs the supporting casts as well as the suitable background." I am sending these messages to you and to the universe to start the chain of events. You can meditate on them and get further details that will be helpful to you.

Happy New Year!

Vu Tran
